- Dementia is highly prevalent, costly and requires more complex management than other diseases. That's why the @Centers for Medicare & Medicaid Services urgently needs new payment models that fully cover comprehensive care, which has been shown to improve outcomes for people living with the disease and their family caregivers while lowering costs. CMS, please implement a comprehensive care alternative payment model now to rapidly create a path towards higher quality, more equitable dementia care. A new @Health Affairs piece offers recommendations for a payment model. <http://bit.ly/3DPKYqt>
